

Alcohol interlocks – why not ?

Elected officer Norwegian Transport workers
union

Geir Kvam

Alcohol Interlocks

- The motive – to prevent drivers from driving under the influence of alcohol
- To ensure that the privacy rights of our members are taken care of in a professional way
- Taking care of the labour law issues through negotiations with the employers and principals

Alcohol Interlocks – Why CENELEC ?

- To ensure that the equipment in use are high standard products.
- This also means that the data security is taken care of
- The driver must in all ways trust the alcohol interlock – in the same way as the trust the Digital tacograph

Alcohol interlocks – why CENELEC ?

- Gives us a unique possibility to gain knowlegde.
- The ability to influence the process at an early stage
- And our common goal is

Alcohol interlocks

- NO DRUNK DRIVERS ON THE ROAD....
- Thank you for your attention
